Commemoration)*

STEAM EDUCATION

In the rubrics of Science, Technology, Engineering, Arts and Math (per respective grade level entry) this program aims to engage students of every level to think critically about our local environment and how our region has responded to past degradation. By making this it's own "Crooked River Conversation" in the region's commemoration efforts, we are putting the student voices at the same platform as every other aspect of culture that we are featuring! Please join us as we give your student's the opportunity to be a part of this catalytic and transformative year.

Contact Peter Bode to get involved at: peter@westcreek.org

WHO CAN SUBMIT?

Any student or student group within the Cuyahoga River Watershed!

Registration Required

WHAT ART CAN BE ENTERED?

Artist's Choice!

This Showcase is designed to allow the young artists to have their voice to be heard in whichever creative way they are most comfortable.

(examples: posters, paintings, spoken word, poetry, songs, 3D art, any other open to the imagination)

WHAT THE ART IS TO ANSWER!

Question 1: Where would we be if measures were never put in place to clean up the Cuyahoga River?

Question 2: Where will we be if we increase these efforts?

RESOURCE REQUEST

If you would like subject related educational resources, or if your students need art materials to complete their piece, you can request assistance to the contact provided.
